

MUNITION MEN HIDING PROFITS

ATTEMPTS TO EVADE THE PAYMENT OF TAXES ON PROFITS ARE PROBED

(By Associated Press.)
WASHINGTON, D. C., June 19.—Widespread attempts on the part of munition makers to avoid the payment of profits taxes imposed by congress last September have been reported by internal revenue agents who have been working quietly for the last two months checking up the manufacturers' returns.

The extent of the attempted evasion thus far brought to the attention of the treasury totals more than \$10,000,000 of approximately 40 per cent of the returns voluntarily made. Indications are that the figure will go as high as \$12,000,000 or \$13,000,000.

CENTERING GOLD IN RESERVE BANKS

STRENGTHENING BANKS IN READINESS FOR LIBERTY LOAN WITHDRAWALS

(By Associated Press.)
WASHINGTON, D. C., June 19.—Amendments to the federal reserve act, designed to strengthen the financial system of the country by the concentration of gold reserves in federal reserve banks and to open wide the door to the federal reserve to state banks and trust companies were sent to the president for his signature yesterday.

The senate finally accepted a conference report previously approved by the house.

The first effect of the changes will be the shifting of more than \$200,000,000 in reserves from the banks of the country to the federal reserve banks where the great store of gold will be in a position to achieve its maximum efficiency.

The effect of this shift, officials believe, will be of incalculable benefit to the financial system of the country at this time when the strain of heavy withdrawals from the money markets to meet installments on the Liberty Loan payments.

COAL IN LIMITED QUANTITIES COMING

Consumers of coal are taking advantage of the warm weather and the diminished demand for actual consumption to lay in stock for the coming winter. Many small consumers are storing in two and three-ton lots but the receipts are not adequate to fill even these orders. One carload received yesterday was for the West End company, which is taking time by the forelock in anticipation of a shortage later on. What coal comes is from Utah as the Wyoming mines are running to capacity on other orders and largely for government use.

MANHATTAN KIDDIES GET A FREE RIDE

The committee on transportation is arranging to have several large trucks bring all the children of Manhattan into Tonopah for the Fourth of July celebration. Frank J. Cavanaugh, who returned from the Pine Tree camp last night had a conference with Hugh Herd, manager of the Manhattan baseball club, and he states they are practicing daily and expect to put the strongest team possible in the field against the champions from Sparks.

The soliciting committee expects to complete their labors today and with the money assured to carry out the program as outlined by the executive committee one of the largest and best celebrations ever staged in southern Nevada, should take place in Tonopah July 4th and 5th this year.

Both Malone and Salvatore will be in active training the latter part of the week, as telegrams received from both state they will arrive during the next two days.

Lower floor seats will be \$3, with the first five rows of elevated seats reserved at \$2, while the last five rows of elevated seats will be sold for \$1 each. In order to secure a good, first-class seat everybody should make their reservations early.

WOLFTONE BUYS CLAIMS

The Wolfstone Extension Mining company has bought four adjoining claims reaching to the summit of Black Mammoth Hill and soon will be ready for an aggressive campaign.

An adlet in the Bonanza is the best investment.

NOTICE TO CREDITORS

In the district court of the fifth judicial district of the state of Nevada, in and for the county of Nye, in the matter of the estate of Louis Johnson, deceased.

Notice is hereby given that the undersigned has been duly appointed and qualified by the district court of the fifth judicial district of the state of Nevada, in and for the county of Nye, as administrator of the estate of Louis Johnson, late of said county, deceased.

Creditors having claims against said estate are required to file the same, with proper vouchers attached, with the clerk of the court, within 30 days of the first publication of this notice.

Dated June 17th, 1917.

CITIES DOUBLING RED CROSS FUNDS

ENCOURAGING REPORTS COME IN FROM THE WESTERN COUNTRY

(By Associated Press.)
WASHINGTON, D. C., June 19.—America today turned to the task of raising \$100,000,000 for the Red Cross in an eight-day campaign.

With the campaign only one day old, telegrams pouring in to the office of the Red Cross war council tell stories of generous donations in almost every section.

The campaign committee at Denver, whose apportionment was \$200,000, decided this was too little and set a new goal of \$500,000. A message said prospects were bright for raising the larger sum. Wichita, Kansas, announced \$40,000 subscriptions were obtained within a few hours after the campaign opened.

OVER A MILLION FOR THE RED CROSS

(By Associated Press.)
NEW YORK, June 19.—Red Cross dividends amounting to \$1,035,500 declared by four corporations yesterday brought the total contribution to the \$100,000,000 war fund up to \$12,933,913. Included in this amount is \$55,000 received from the Rev. Wm. A. Sunday who divided between the Red Cross and the "Y. M. C. A." the "free will offering" of \$116,000 given to him yesterday at the close of an evangelistic campaign in this city.

TONOPAH GETTING BEST BRAND OF WEATHER

J. C. Piercy, former observer of the Tonopah weather station, but now chief assistant of the Santa Fe U. S. weather office, in coming to his old home for his vacation says he encountered the hottest weather he ever experienced in coming through San Bernardino county the other day. At Needles the mercury registered 118 degrees in the shade and through southern California the death rate was reported far in excess of normal.

CATCHES VALUES IN THE MANHATTAN CON.

Late yesterday afternoon Manhattan Con. cut the ledge in the cross-cut and caught values in the hanging wall with a full blast expected today. The drillings showed values and Supt. Page telephoned C. C. Boak and E. Erickson, who motored out and secured samples which were run this morning.

AFTER SEVEN YEARS MAY SAVE A HULL

(By Associated Press.)
VALDEZ, Alaska, June 19.—An attempt may be made to lift the wrecked steamer Olympia, which has been impaled on a pinnacle rock off Right Island since December 19, 1910, and put her in commission against. This staunch hulk has withstood the battering of the seas in Prince Williams Sound without a tremor and although dismantled of

all movable parts, stands erect as the night she struck. She is the marvel of all Alaska tourists appearing to be aloft instead of ashore.

The eyes of shipping men have been cast toward the wrecked Olympia since the value of carriers of all class and description has increased to unprecedented figures owing to the war and men now are working on plans for floating the vessel. They explain that salvage plans would entail considerable expense, but with the high price of tonnage the undertaking might net a large profit, just for the plates composing the steel hull.

The Olympia ran on Bligh Island on her way from Cordova to Valdez. By chance more cargo remained in her forward hold than aft, and she was down by the head so far as to fall to answer to her helm. Capt. James Daniels, the master, saved the lives of all on board by ordering them not to take to the boats during the night. He lost his life last summer when the steamship Admiral Clark of the Pacific Steamship company foundered in the Gulf of Mexico.

CAN'T FINISH CANTONMENTS IN TIME FOR TROOPS

(By Associated Press.)
WASHINGTON, D. C., June 19.—Simultaneous construction of 16 war army cantonments, each to house 40,000 troops has proved such an enormous task that officials do not now believe it can be completed in time to permit the mobilization of the first quota by September 1.
